### PROFESSIONAL SUMMARY

With over 5 years of professional experience in web development and digital marketing, I have honed my skills in managing and leading development teams at TDMC and Major Conversions. I specialize in PHP, WordPress, and full-stack web development, with hands-on experience in designing, testing, deploying, and maintaining web applications. My technical skills include proficiency in HTML, CSS, JavaScript, MySQL, and PHP, along with a strong background in social media management and digital marketing. I am now seeking a challenging role that allows me to leverage my expertise in computer science and web development while contributing to innovative projects in a dynamic and forward-thinking environment.

### EXPERIENCE

#### **Senior Web Developer, (TDMC)**

**Feb 2020 – December 2024**

- Led a development team at TDMC, overseeing web application projects from planning to deployment, ensuring efficient project delivery.
- Streamlined workflows and implemented best practices, boosting team productivity and reducing project turnaround time.
- Delivered high-quality web applications on time and within budget, enhancing client satisfaction and fostering long-term partnerships.
- Contributed to TDMC's growth by maintaining strong relationships with clients and driving successful digital marketing and development projects.

#### **Remote Web Developer, Major Conversions**

**Nov 2021 – June 2022**

- At Major Conversion I worked as a lead Web Developer and used to manage, developed, tested, deployed and maintained web applications. It was a part-time remote development job.

#### **WordPress Intern, Alchemative PVT. LTD.**

**May 2019 – October 2019**

- Joined as WordPress developer Intern and performed all the given tasks efficiently. Worked on <https://mistore.pk/> Pages by using HTML, CSS, Bootstrap, JavaScript / JQuery.

#### **Water & Power Development Authority**

**June 2018 – July 2018**

- I've completed 6 weeks internship at (Computer Admn.) WAPDA House Lahore. I have worked on template customization by using HTML, CSS, Bootstrap, JavaScript and JQuery. I also worked on ASP.NET to make web forms by using C# other than I learned the basics of Database(MYSQL).
